## A-910 AIR SPRAY GUN

The A-910 conventional spray gun is designed for furniture fine finishing, auto body shops, metal fabrication shops, contractors, and hobbyists. The metal gun is durable and has a large pot opening for easy cleaning. Spray fan width control is adjusted at the top back of the gun. Materials which can be sprayed include varnish, urethane, lacquer, automotive paint, epoxy, enamel stain, latex, oil base, and heavier exotic coatings when using the larger nozzle set. The gun comes with a 1 quart container and can also be used with an optional 2 quart or 2.25 gallon remote pressure pot. The fluid needle and seat are made of stainless steel, and the entire gun can be placed in a gun cleaning cabinet. This gun is supplied with a 1.4 mm general purpose nozzle for thin materials such as varnish, stain, and enamels (latex and oil base require some extra thinning). Other sizes available separately.

Part Number	Description	Price
04-L015-012	A-910S with cup (1.8 mm)	\$169.50 ea.
04-L015-013	A-910P for pressure feed (1.4 mm)	\$139.50 ea.
04-L015-014	A-910G with metal gravity cup (1.4 mm)	\$169.00 ea.

### Applications:

- ✦ Furniture finishing
- ✦ Automotive finishing
- ✦ Industrial coatings
- ✦ Aircraft refinishing

### Features:

- ✦ Full controls
- ✦ All metal gun body
- ✦ Easy to clean
