

Taurus Industrial Sales Inc.

3327D MAINWAY DRIVE. BURLINGTON, ONTARIO L7M 1A6

The **Andreae Standard** filter is applicable to all dry spray booths. It is made of two accordion-pleated perforated cardboard walls glued by their edges with staggered holes to provide a high efficient filter.

The result of this unique design engineered by **Andreae** is the original standard world wide known as the most “easy to use and long lasting filter” on the market.

Andreae Standard filter lasts 3 to 5 times longer than fiberglass filters.

3' X 30' STD andreae FILTERS	
Quantity	Price
