freud PREMIER FUSION INDUSTRIAL SAW BLADES *(NEW)*

Freud engineers have discovered the ultimate combination of fused tooth grind geometry, blade body rigidity, precise tensioning, a special carbide blend and superior carbide brazing, non-stick Perma-SHIELD® coating and high 4performance anti-vibration - all working together in concert to provide the ultimate cut. **This one blade does it all.** Whether you're ripping or crosscutting, a Premier Fusion blade will tackle any project.

Application:

- Crosscutting and ripping plywood, laminates, hard and soft woods.
